EDUCATION

National Institute of Technology (NIT), Jaipur

B.Tech - Electrical Engineering

Dec 2021 – Jun 2025

Jaipur, Rajasthan

SKILLS

- **Risk & Compliance:** Control Effectiveness Testing, Risk Assessment, Risk Mitigation
- **Data Quality & Governance:** Data Validation, Data Integrity, Data Quality Monitoring, Metadata Management, Gap Analysis
- **Data Analysis & Reporting:** SQL (PostgreSQL), Python, EDA, ETL Workflows, KPI Tracking, Analytical Modeling, Descriptive & Inferential Statistics
- **BI & Visualization:** Power BI, Metabase, Google Analytics, Excel (Advanced), Dashboard Design & Maintenance, Compliance Reporting
- **Workflow & Automation:** Google Apps Script, Pipeline Monitoring, Scheduled Reporting
- **Soft Skills:** Stakeholder Communication, Cross-functional Collaboration, Adaptability, Team Collaboration, Attention to Detail

EXPERIENCE

ELIVAAS

Business Analyst

Aug 2025 – Present

Gurugram, Haryana

- Designed and audited an end-to-end data pipeline for a **Daily Business Health Tracker** using **Google Apps Script** for business channels (B2B, B2C, Supply, Website) to ensure **data integrity and operational compliance** for leadership reporting.
- Performed **data quality testing, validation, and compliance checks** on property rate plan data in **PostgreSQL**, enforcing **data governance policies and control effectiveness** across booking platforms, directly reducing pricing discrepancies and **mitigating downstream data risk**.
- Designed and maintained **compliance and performance dashboards** in **Power BI and Metabase**, **tracking KPIs and risk indicators** for operational stakeholders, enabling **audit-ready reporting** that contributed to a **2.8× revenue increase in 4 months**.
- Conducted **property- and location-level operational audits** by partnering with marketing and supply teams to **identify control gaps and risk exposures** within large datasets, producing **actionable closure guidance** that improved property-level revenue by **42%** and location-level revenue by **35%**.

PROJECTS

Compliance & Risk Threshold Monitoring – Operational Audit | SQL, Excel Jan 2025 – Feb 2025

- Wrote **SQL queries** to process and **audit performance logs** of **50+ entities**, computing **rolling 7-day workload metrics** and performing **data validation and anomaly detection** to flag deviations against **defined risk thresholds** – simulating a real-world operational audit framework.
- Built an **Excel compliance monitoring dashboard** with **automated risk flags and quality indicators** for high-risk segments, enabling structured **visualization of control gaps, exposure levels, and pipeline health** across cohorts for audit stakeholders.
- Performed **segmentation and risk assessment** to identify that high-stress cohorts were **1.7× more likely to experience adverse outcomes**, producing a structured **compliance insights report with process improvement and control effectiveness recommendations**.

SaaS User Retention & Funnel Analysis – Data Quality & Governance | SQL, Python, Power BIMar 2025

- Built an **end-to-end data pipeline** with **data wrangling, validation, and governance checks** using **SQL and Python (pandas)**, ensuring **data integrity and compliance** of analysis-ready datasets aligned with **records management standards**.
- Developed **funnel and cohort analysis** with structured **quality testing reviews** to measure user drop-off and **identify control gaps** in engagement workflows, surfacing **risk-based insights** for product stakeholders.
- Designed a **Power BI compliance and performance dashboard** to visualize retention trends, KPI benchmarks, and funnel metrics.
